BRENNER RESEARCH HOUSE PR39 IN SWR TV

A short report was filmed at the Brenner Research House PR39 this summer for the SWR Landesschau in German TV. For those who have not seen it in June, here is the recording on our Video Channel.

Für unsere Leser, die dann beim Anschauen auch den deutschen Text verstehen und deshalb eventuell vor Rührung zum Taschentuch greifen müssen, folgende Ergänzung zur Beruhigung: Auch wenn die Sprecherin von 10 Jahren "in denen kein Durchbruch in Sicht war" berichtet und Alexander Brenner durch geschickten Schnitt darauf zu antworten scheint, so war er sich sicher, daß er tatsächlich vom ersten Jahr nach der Bürogründung spricht!

(Wir bitten deshalb von eventuellen Spenden und Mittelsbekundungen abzusehen :))

A NEW PIECE OF ART

Many years ago, there was the idea of taking the theme of "table legs" a little more literally. That's why the sculpture "ISIS" was created some time ago. Finally we started and commissioned the moulding to a very professional concrete specialist. The first attempts were successful and stable and just for fun we did a stress test at the producing company. Beginning of next year the final models will be manufactured, the table tops are already in production.

FROM OUR CONSTRUCTION SITES

Times are certainly difficult for many and some sectors are severely affected. We are therefore grateful that things have continued on all our construction sites and that we as well are able to work on current houses and on exciting new projects.

UND NOCH EIN HERZENSWUNSCH VON UNS

Bei so viel Baukunst hat unser administrativer Bereich bisher etwas weniger Aufmerksamkeit erfahren. Das möchten wir nun ändern und wünschen uns fürs neue Jahr Verstärkung in unserem Team.

Wir freuen uns deshalb sehr, eine engagierte Persönlichkeit kennen zu lernen,
