

IN THE PAST WEEKS . . .

One of our latest babies - Fineway House in Reutlingen, realised in refined limestone-concrete was shot by Zoëy Braun in June. As always it was a great pleasure for us to work with him and warm thanks to the owners for having us.

Some weeks before final completion the 3-storey residence building Parler 41, which is located close to our atelier, was also shot by Zoëy. Thanks! The 3 apartments will be available for rent from September.

QUITE A WHILE AGO . . .

The two parquet floorings BETWEEN and CONTE, designed by Alexander Brenner for Listone Giordano's Natural Genius series at the Euroshop fair in Düsseldorf, February 2020.

CURRENT PROJECTS

LAKE HOUSE, Bodensee - The work goes on and it's a great pleasure to supervise the progress. Even the family of the project managing partner Ben Callies enjoy to accompany him to this magic place.

VILLA PORTUS, Pforzheim - The building shell is completed and the roof has been insulated and sealed. The exposed concrete surfaces have been refined.

PARKSIDE, Melsungen - The modeling of the garden and the interior works started.

RUDOLPH HOUSE, Stuttgart - A lot of action on the construction site just in front of the finishing line.

TOUR D'INSPIRATION

Inspiring tour to art, architecture and nature in the (still) quiet spots of southern France.

A NEW CHAPTER IN OUR ATELIER GARDEN

Even if the world has gone a little off the rails, it blooms and grows in our new "monastery garden". A lot of food, vegetables and herbs for our everyday studio lunch.

All the best and a nice, relaxing and healthy summer,
out of the green :) :)
