Due to the current supply difficulties our book was scheduled by the publisher for January 2023. Surprisingly the printing house Passavia in Passau managed to get their hands on the needed material earlier and made the unexpected possible. So the book will be available from October, 20, 2022. We are happy that even in these times some things happen more rapidly than we could have hoped for.

Field trip to the south of France with lots of inspiration at Roquebrun, the Maeght Foundation, Port Grimaud and on the way back at Monte Carasso, September 2022

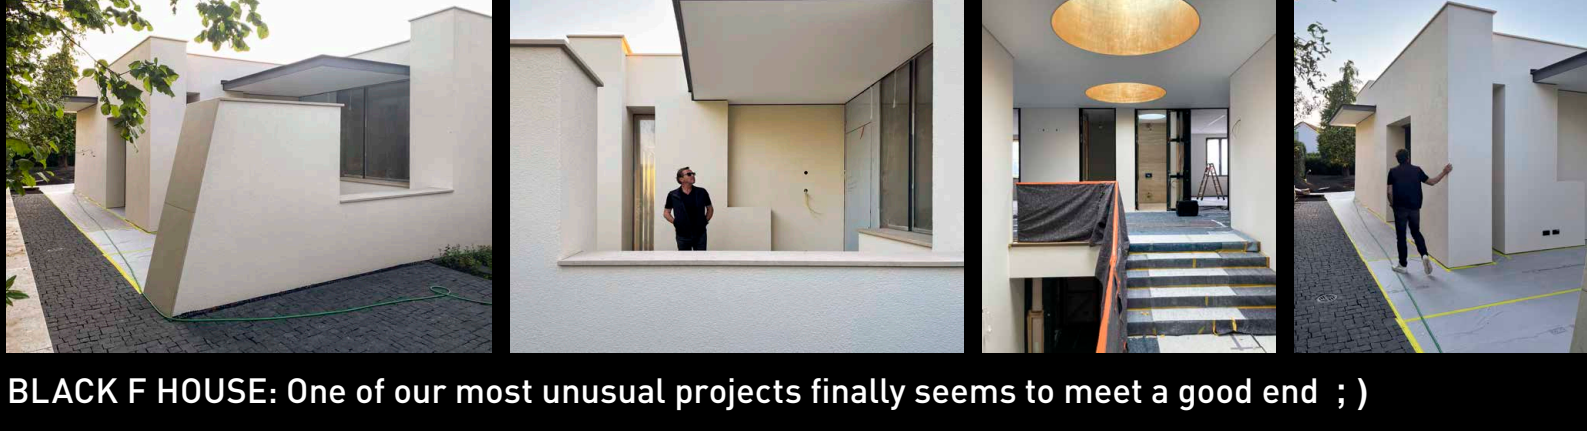

LIGHT & BUILDING, Frankfurt: Interesting and fulfilling time with new products and old friends :) Being at JUNG, BEGA and many others . . . , October 2022

The partners on tour: first Hamburg and after that visiting ONE A in Stenderup, Denmark and finally Olafur Eliassons masterpiece, the Fjordenhus in Vejle, October 2022.

IMPRESSIONS FROM CURRENT PROJECTS

TANK HOUSE: One of the most challenging and complicated building shells will be completed soon.

RUTSCHENHOUSE: A conversion of a 1920s house that is currently being completed has a surprising inside . . . a wooden slide! We are delighted when our clients have unusual ideas and very much enjoy implementing them.

BLACK F HOUSE: One of our most unusual projects finally seems to meet a good end :)

PARKSIDE HOUSE: Now the outdoor facilities are also completed at this quiet and beautiful place.

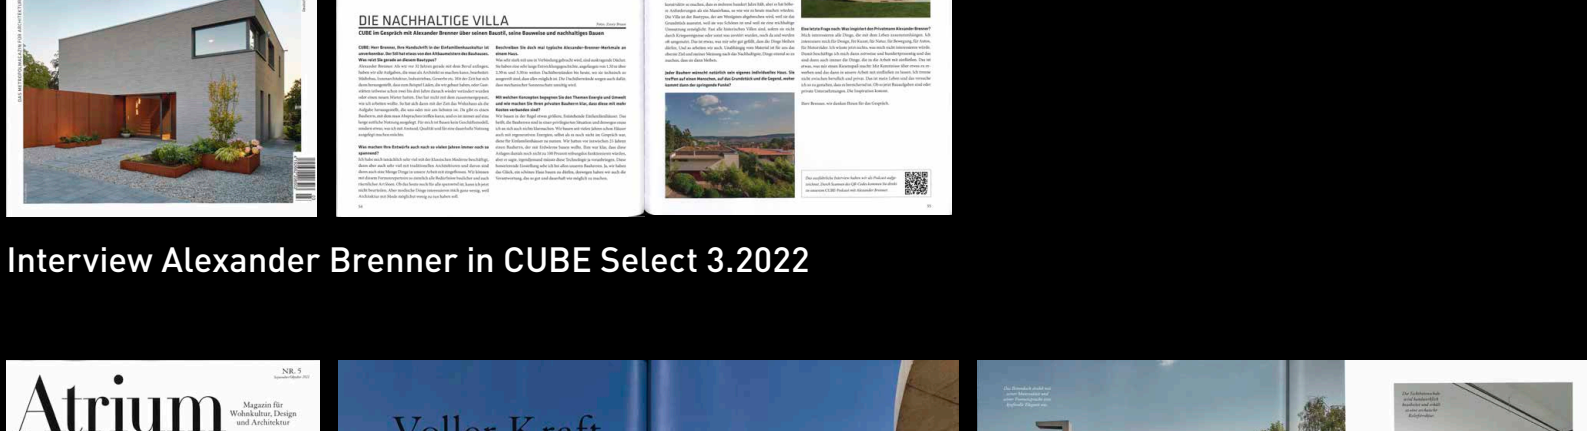

PORTUS HOUSE: This house on the northern edge of the site opens up towards nature and a beautiful landscape garden. We wish the owners lots of joy with their new piece of home.

RADIKALE MITTE: To make an exciting restaurant out of a dilapidated house requires lots of courage and exceptionally skilled craftsmen.
