

... IN THE PAST WEEKS

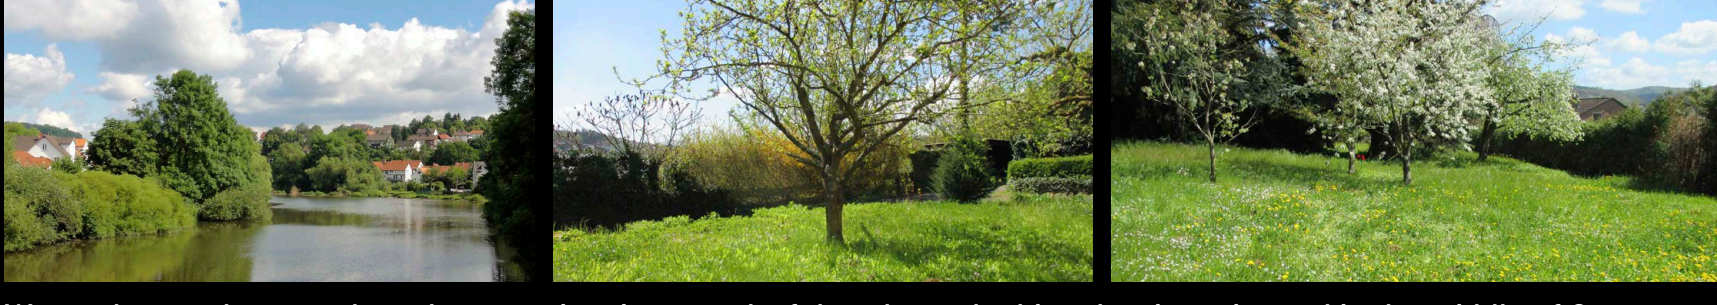

Shooting at House Rottmann, Wiesbaden, July 2016 - three beautiful and intense days. We are grateful for the warm welcome by our clients at their home and their support and acting as "real models". ... and very special thanks to their fantastic kids!

And as always we are glad to welcome people who fight and work together with us for the necessary and the beautiful. From left to right Alessandro Foschini, Area Manager and Andrea di Guiseppe, CEO TREND Group, Martin Miedl, great artist in stone working and the master of construction Tobias Röck from Karl Köhler.

CURRENT PROJECTS

We are happy about our brand new project in a wonderful park overlooking the river situated in the middle of Germany

Just now in an exciting design process - the House "One Wing" in the northern Black Forest, Germany

Design process finished for our first "real" country house in the mountains of Austria. The construction of stone and wood is inspired by the ancient traditional Montafon-houses.

The plans are all done. Just after the summer holidays the construction work for "Fineway House" will start on this beautiful site. The house will be built in shiny refined concrete with the local limestone as aggregate.

Crown House, Frankfurt - More and more beautiful and exciting materials and finishes are added. The Landscape is prepared for the laying of the turf rolls next week and like always this will change everything :-)

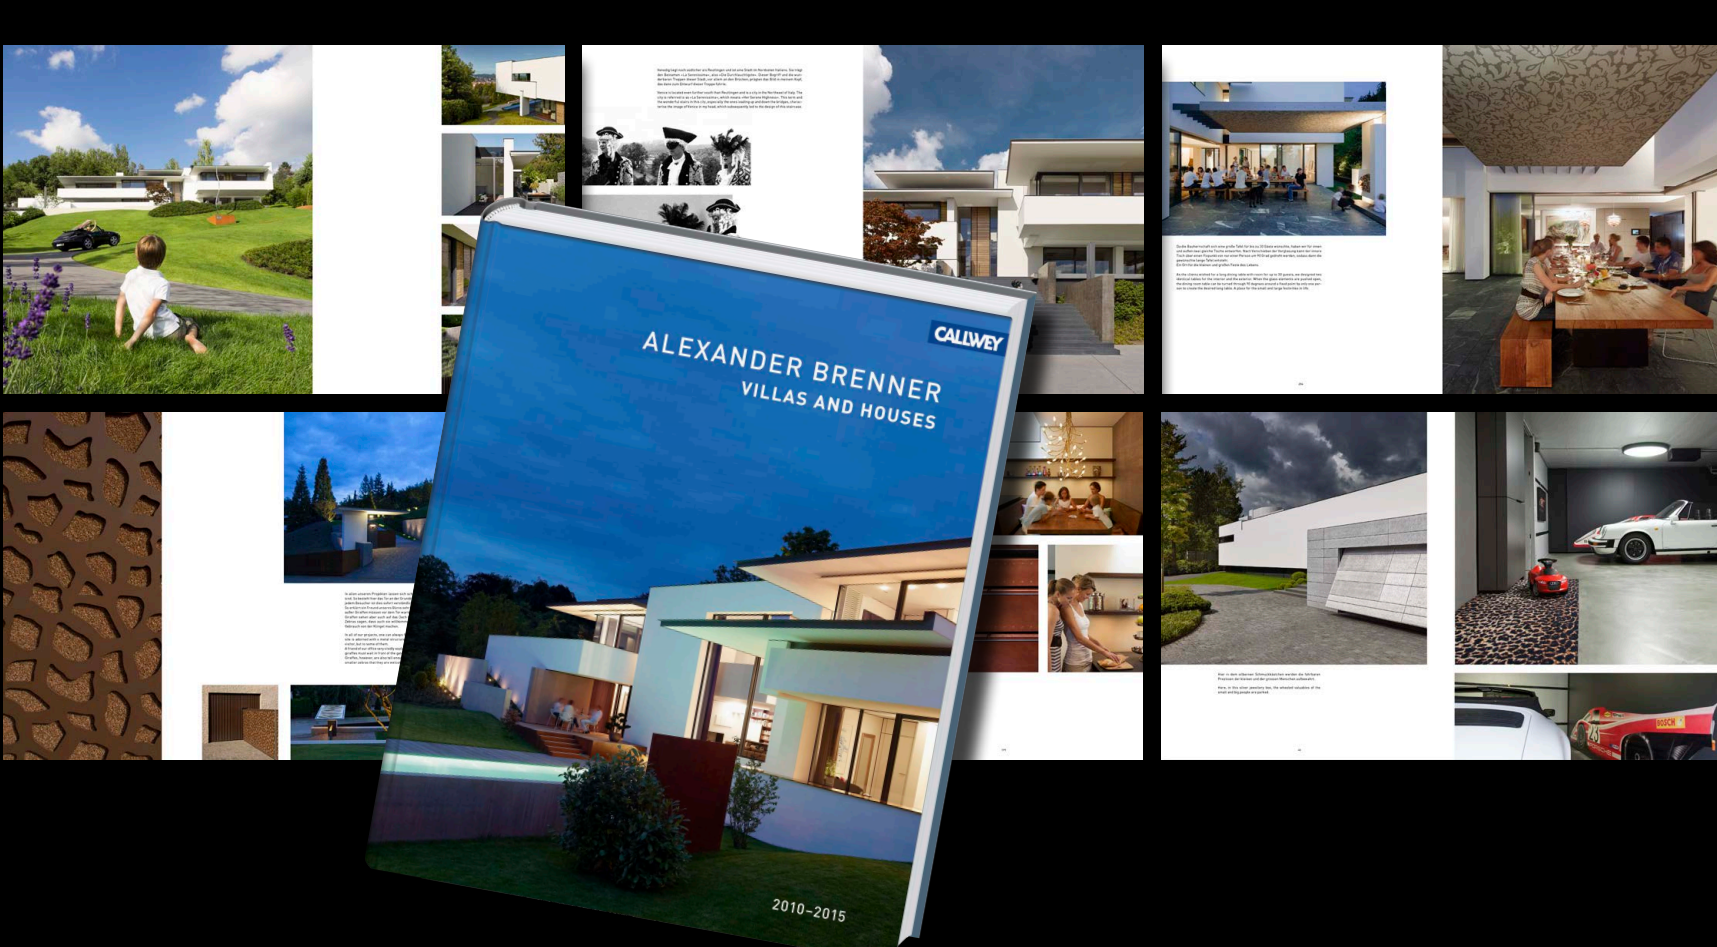

Ten years after we finished House B-Wald we designed a garden pavilion with an outdoor kitchen. This will be the right place for the small and large festivities of life.

House PR41 has already reached its final height, the Parler Research House 39 is now more and more catching-up.

OUR BOOK TIP FOR SUMMER HOLIDAYS ...

After intense researches on the book market we found this monograph we would like to recommend :-)
